Understanding Inner Confidence in Children

What is Inner Confidence?

Inner confidence refers to a child?s sense of self-worth and belief in their abilities that is rooted within, rather than solely dependent on external validation. It enables children to trust their judgment, embrace their unique qualities, and persist through difficulties.

The Difference Between Confidence and Self-Esteem

While often used interchangeably, confidence and self-esteem are related but distinct concepts:

- **Confidence**: A belief in one?s abilities in specific areas or tasks.
